## BESKRIVNING

I enjoyed Christie-Marie Sheldon's unlimited abundance group for a year. I started this webinar and face book group in august 2014 and found really good friends that healed me from my blocks. I worked with spiritual healing for over thirty year's active in many ways. Different meditation. Tao, qi-gong, dancing different dances, ritual theatre, painting, symbols, chanting, writing, singing, ceramics, making photos and active helping near friends and kids with special needs. This is a bridge to heal me in all aspects in my life and I have also academic tools that I use in my profession. But it is important for me to clearing my blocks from this and past lives even negative energies that were sent in different way that i didn't want to have. Thank you Christie-Marie Sheldon for being my teacher in this and all my friends in this tribe. You helped more then others did for sure in an inner emotional, spiritual way. I am thankful for learning to know you on a soul level. I am single mother to and adult son with autism and rose in a Swedish Jewish orthodox community in Stockholm. My both parents survived the concentration camps that I was forced to listen from an early age and made bad impacts on my life. I married orthodox to a Jewish family but things were not coming out right. I and my son were bulled out of the community because I initiated a divorce from the rabbinate. As there was a chief rabbi in my ex-husbands family so much shame and guilt projected on me and my son. I found the culture life and spiritual life to heal me and my son from the wounds from the community; meanwhile I was studying more special pedagogic and coached other communities. I'm trying to take back my birthright and life power to live my life with the highest and happiest energies together with my son, close firends, colleges and soon soul mate.
