BESKRIVNING

Hundreds of millions travel by underground train every day. The subway is one of the world's most common means of transport and an environment where many of us spend a great deal of time. Subway cars are also important canvases for the artists behind one of the most widespread modern art movements today - graffiti. Subway Scrawl is a collection of 10 classic subway designs in a practical notepad. Bring out your creative side and add your own personality to the cars. Try your hand at making a Stockholm subway whole car, scribble diary notes or write a to do list on a London Underground car.
